swimming and had a good time. After coming out, a Chinaman threw a box overboard, and a shark about nine feet long swam up to it and nosed around it for a while, and I tell you we all felt thankful that we were on board the ship and out of his reach.

I mail a paper giving a description of the "Arizona," and also a song. We expect to arrive at Honolulu Sai urday, stay there three days to coal up and await orders, then on to Manila.

A great many have been sea sick, but have not been sick a minute. We have had a very nice trip, but most of the boys sing with feeling the song. "Captain, please stop the ship, I want to get off and walk."

The meals on board ship are very poor and enough to make a well man sick. Our company is all right, every one well, and I am enjoying the best of health, but like it much better on land. Most every one is on deck today, and t is nice. Good-by. Love to all. FRANK.
